Hello, my name is Soma Selmeczy, I am the Hungarian lecturer at UdSU. I am from Hungary, but in the last few years I lived and worked in many different countries. I love traveling and learning new languages. I am a linguist, particularly interested in comparative morphology, morphosyntax and language documentation. I am looking forward to spend the following few years here, in Izhevsk and learn more about the Udmurt language and culture. My hobbies are hiking, cooking, walking around aimlessly and asking questions.
